- The screenshot displays the QGIS 2.0.1-Dufour desktop application. The top menu bar includes Project, Edit, View, Layer, Settings, Plugins, Vector, Raster, Database, MMQGIS, Processing, and Help. The 'Plugins' menu is currently open, revealing options for 'Manage and Install Plugins...' and 'Python Console'. Below the menu bar is a toolbar with various icons for file operations, editing, and navigation. On the left side, there is a vertical toolbar with icons for different map layers (e.g., vector, raster, WMS). The 'Layers' panel on the left is empty. The main map canvas is also empty. At the bottom, the status bar shows the current coordinate as 0.515,-1.878, a scale of 1:4098808, and the coordinate reference system as EPSG:4326.
