## Core Plugins

Core      plugin            QGIS

1.       QGIS  Plugins ▸ Manage and Install Plugins...  
                              Plugin Manager

- ```
2. ██████████ QGIS ██████████ ██████████  
   plugin ███████ Installed ██████████ Core Plugins  
   ██████████ OGIS ██████████
```

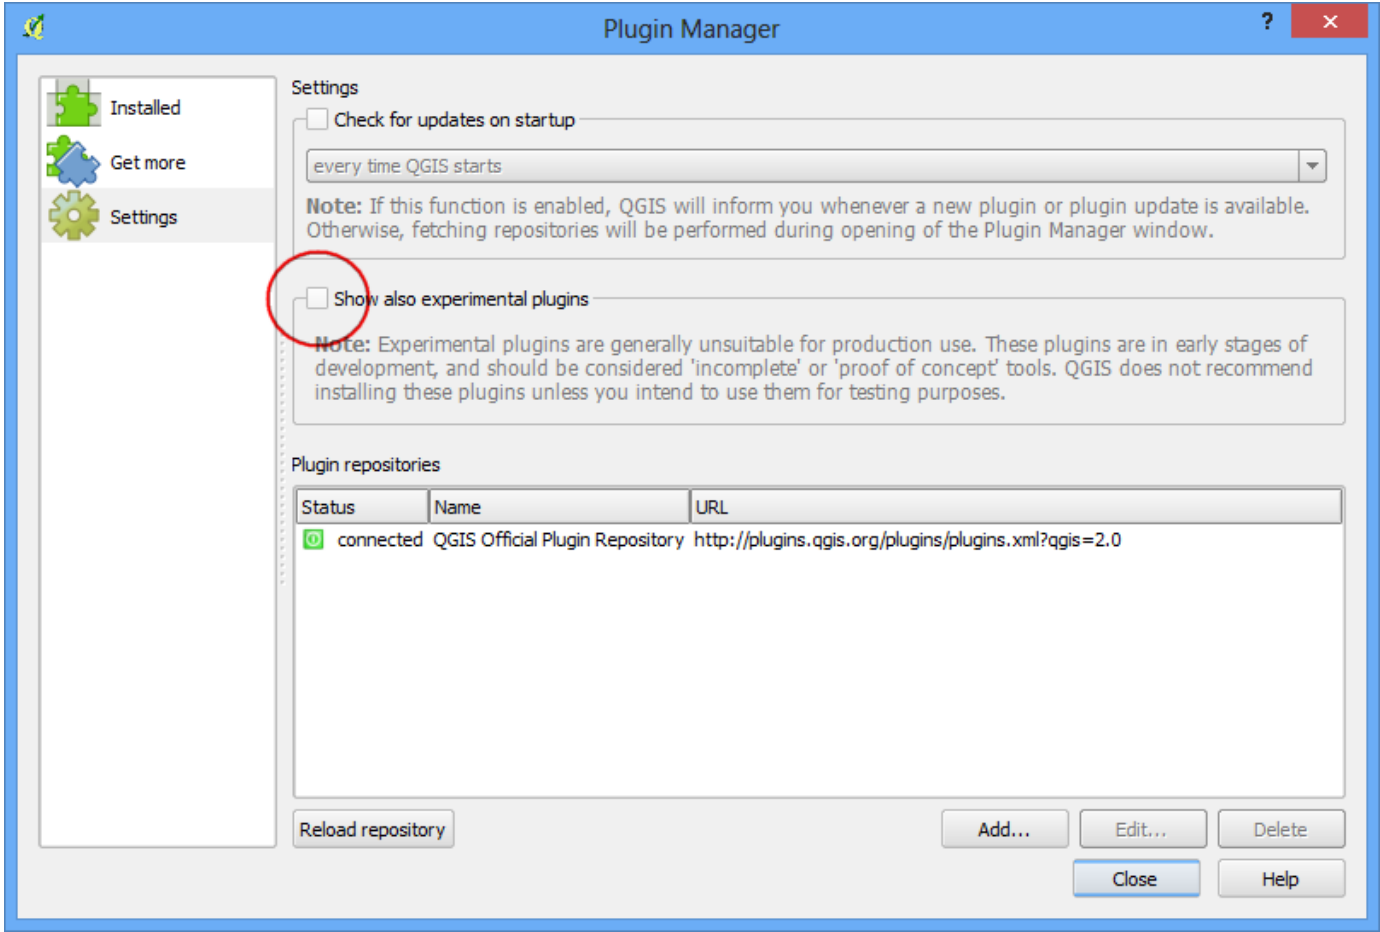

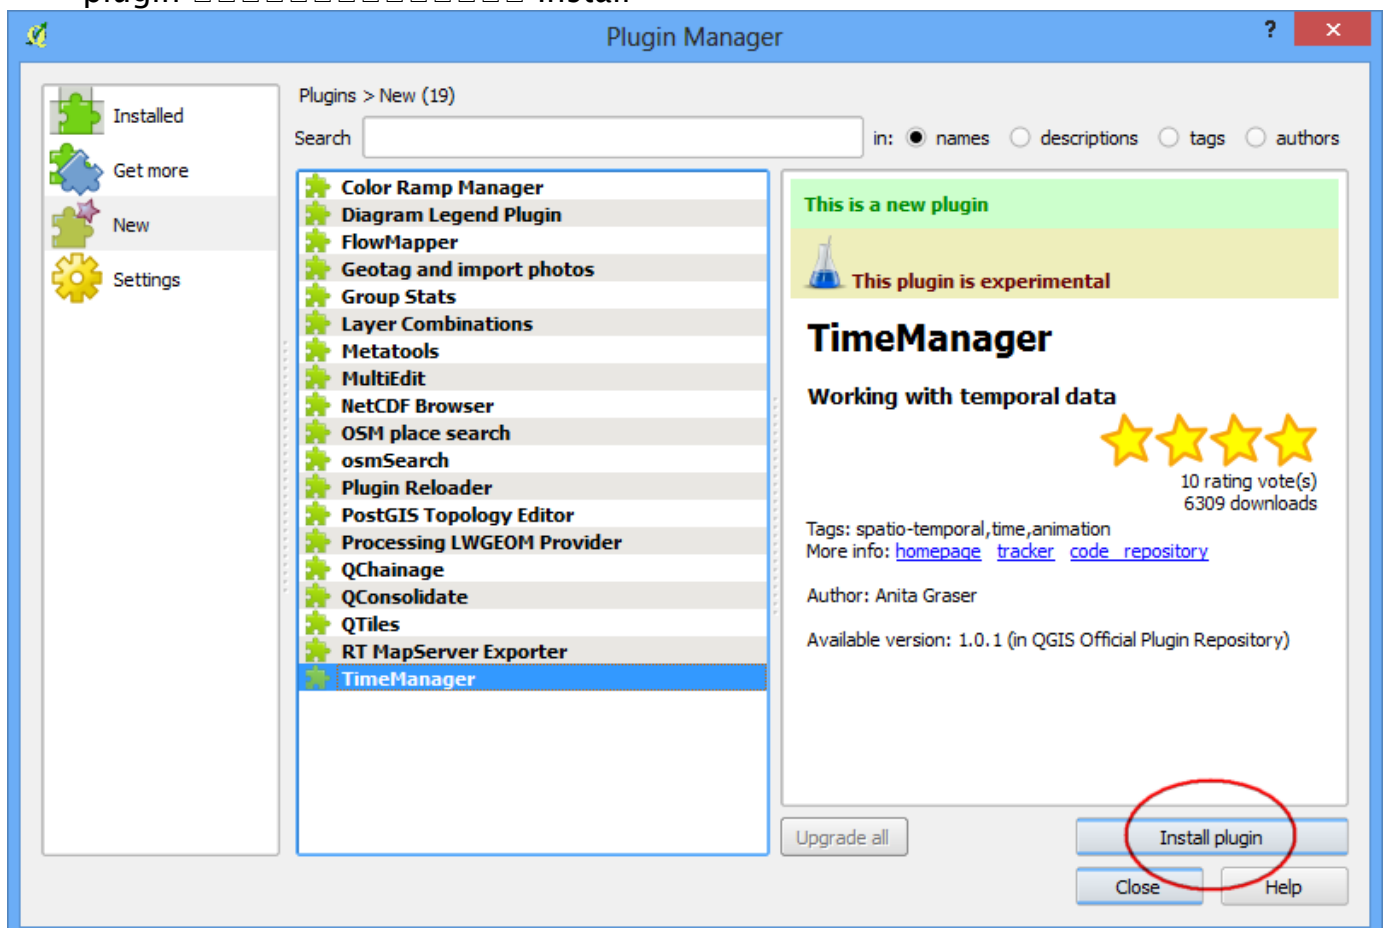

2.  **New**  **plugin**

### Note

| Category | Count |
|----------|-------|
| New      | 4     |
| plugin   | 28    |
| Plugin   | 16    |
| Manager  | 12    |
| plugin   | 16    |
| Get more | 8     |

3. 検索した plugin の TimeManager をインストール

The screenshot displays the QGIS 2.0.1-Dufour software interface. The main window is titled "QGIS 2.0.1-Dufour". The top menu bar includes "Project", "Edit", "View", "Layer", "Settings", "Plugins", "Vector", "Raster", "Database", "Processing", "MMQGIS", and "Help". Below the menu bar is a toolbar with various icons for file operations, editing, and navigation. The left sidebar contains a vertical toolbar with icons for adding layers, opening recent files, and other project management tasks. The main canvas area is currently empty. At the bottom, the "Time Manager" panel is visible, which includes a "Settings" button, an "Export Video" button, a "Time frame start" field set to "2000-01-01 00:00:00.000", a "Time frame size" field set to "1", and a unit dropdown menu set to "days". There are also play and stop buttons and a progress bar.

5. Manager    0000/0000    00000000000000000000 View ▸ Panels ▸ Time
